

17. Division of Quality Assurance

- 1) Momose, H., Imai, J., Hamaguchi, I., Kawamura, M., Mizukami, T., Naito, S., Masumi, A., Maeyama, J., Takizawa, K., Kuramitsu, M., Nomura, N., Watanabe, S., Yamaguchi, K. Induction of indistinguishable gene expression patterns in rats by Vero cell-derived and mouse brain-derived Japanese encephalitis vaccine. *Jpn. J. Infect. Dis.* 63, 25-30, 2010
- 2) Yuen, C.T., Horiuchi, Y., Asokanathan, C., Cook, S., Douglas-Bardsley, A., Ochiai, M., Corbel, M.J., Xing, D.K.L. An *in vitro* assay system as a potential replacement for the histamine sensitisation test for acellular pertussis based combination vaccines. *Vaccine* 28, 3714-21, 2010
- 3) Momose, H., Mizukami, T., Ochiai, M., Hamaguchi, I., Yamaguchi, K. A new method for the evaluation of vaccine safety based on comprehensive gene expression analysis. *J. Biomed. Biotechnol.* 2010:361841. Epub 2010
- 4) Matsumoto, M., Horiuchi, Y., Yamamoto, A., Ochiai, M., Niwa, M., Takagi, T., Omi, H., Kobayashi, T., Suzuki, M.M. Lipopolysaccharide-binding peptides obtained by phage display method. *J. Microbiol. Methods* 82, 54-8, 2010
- 5) Ochiai, M., Yamamoto, A., Naito, S., Maeyama, J., Masumi, A., Hamaguchi, I., Horiuchi, Y., Yamaguchi, K. Applicability of bacterial endotoxins test to various blood products by the use of endotoxin-specific lysates. *Biologicals* 38, 629-36, 2010
- 6) Suzuki, M.M., Matsumoto, M., Yamamoto, A., Ochiai, M., Horiuchi, Y., Niwa, M., Omi, H., Kobayashi, T., Takagi, T. Molecular design of LPS-binding peptides. *J. Microbiol. Methods* 83, 153-5, 2010
